

Antiparasitic CANISSHAMPOO^{ad us. vet.}

Antiparasitic shampoo with insecticide formula against fleas, lice and ticks

Particularly fine and soft antiparasitic shampoo designed for hair care of all dog categories and breeds. This effective antiparasitic substance infallibly destroys fleas, lice and ticks. Its composition makes hair easy to comb and keeps it fine and soft for a long time.

Instruction for use:

Rub the shampoo gradually into the dog's wet hair, let work for a while, rinse and repeat the procedure. Then wipe the dog dry and brush its hair. Protect dog's eyes, ears and muzzle. In the case of eye, ear or nose internal contact, irrigate with large quantities of water.

Warning:

In the event of a massive attack of parasites, apply the formulation the next day again.

At extensive invasion of fleas, a decontamination of the environment will be necessary.

In dogs with a lasting dry and faint hair we recommend to use CANISLAC spray a.u.v. - formulation for healthy, beautiful and shiny hair.

Composition:

Aqua purificata, Sodium Laureth Sulfate + Cocamide DEA, Cocamide DEA, Sodium Chloride, Parfum, Piperonyl butoxid 0.5 %, Color, Permethrin 0.2 %, Citric acid, Bronopol
