

RESPIRAL SOLUTION

RESPIRATORY COMFORT

RESPIRAL SOLUTION is a judicious combination of plants for respiratory comfort. This cough syrup for horses combines Ivy, Elderberry with potassium iodide, which promotes the elimination of bronchial secretions.

Its formula has been designed to optimize the respiratory capacities of the athletic horse and is complemented by vitamin C, known for its powerful antioxidant properties.

Athletic horse

Thyme, Eucalyptus, Ivy, Elderberry, vitamin C

USES

	DOSAGE PER DAY	FREQUENCY
Horse	50 ml	10 days

The simultaneous use of different organic acids or their salts is contraindicated when one or more of them are used at the maximum permitted level or at a level close to it.

PRODUCT ADVANTAGES

- > Supports lung function
- > Relieves cough and reduces secretions

TIPS FROM PASKACHEVAL

Ensure proper ventilation in stables to reduce dust and humidity, which can irritate your horse's respiratory system. Provide your horse with fresh, clean water throughout the day to help keep its airways clear.

RAW MATERIALS

Thyme, Eucalyptus, Ivy, Elderberry. Product of the transformation of plants by maceration

Additives (/L)		Nutritional values (%)	
3A-VITAMINS		Crude Protein	0,00%
Vitamin C (3a300)	1000 mg	Crude Fiber	0,00%
3B-TRACE ELEMENTS		Crude Fat	0,00%
Manganese (Manganous sulphate, monohydrate) (3b503)	30 mg	Crude Ashes	0,00%
Iodine (Potassium iodide) (3b201)	100 mg	Natrium	0,10%
2B-FLAVOURINGS		Moisture	96,00%
Aromatic substances			
1A - CONSERVERS			
Formic acid (1k236)	5180 mg		
Propionic acid (1k280)	1510 mg
