BUTAZOL

REGISTRATION NUMBER Q-7972-094

Phenylbutazone and Sodium Salicylate

Solution for injection

**Non-steroidal Anti-inflammatory
Agent with Antipyretic effect**

FORMULATION:

Each ml contains

Phenylbutazone.....200 mg

Sodium salicylate.....13 mg

Vehicle q.s.1 ml

CONSULT A VETERINARY DOCTOR

AVAILABLE BY PRESCRIPTION ONLY

INDICATIONS:

BUTAZOL is a non-steroidal anti-inflammatory agent with analgesic and antipyretic effect, which inhibits the synthesis of prostaglandins that participate as chemical mediators of pain and inflammation. It plays an important role in the inhibition of cyclooxygenase which participates in the development of inflammatory, painful and febrile reactions.

BUTAZOL is effective in relieving pain, reducing swelling and

tenderness, and increasing mobility in animal patients with rheumatic disorders. It can be used in pregnant animals. In equines, it is used in the treatment of traumatic arthritis, acute pulmonary infections, musculoskeletal conditions, dislocations, tendinitis, and trauma.

SPECIES:

Equines (Not intended for human consumption)

DOSES:

1 mL per 50 kg of body weight (equivalent to 4 mg per kg of body weight of phenylbutazone) every 24 hours for 3 to 5 days.

ROUTE OF ADMINISTRATION:

Slow intravenous.

WARNINGS AND/OR RESTRICTIONS:

Do not administer to equines intended for human consumption. The injectable preparation should not be administered intramuscularly or subcutaneously, as it is highly irritating. Intracarotid injections can cause central nerve stimulation and seizures. Therapy should be discontinued at the first signs of any toxic reaction (for example, anorexia, oral lesions, depression, decreased plasma protein, increased serum creatinine, leukopenia, or anemias). Do not use in pregnant animals. Keep in a cool, dry place, in a range within 15-30 °C and protected from direct sunlight. Keep out of reach of children and pets. Shake well before use. Any unused veterinary medicinal product, residues derived from it and empty primary packaging should be disposed of safely and in accordance with local regulations, avoiding contamination of water sources. **Product for exclusive use in Veterinary Medicine.**
