

EASY'MOVE

SUPPORT HORSE'S LOCOMOTION

The locomotor system and spine of athletic horses are in very high demand, which can lead to some deficiencies and stiffness.

EASY'MOVE promotes suppleness on these horses' locomotor systems. It is also recommended to use this product on older horses and horses who often have stiffness in their locomotor system.

Athletic horse

Meadowsweet, willow, stinging nettle (by maceration of plants)

USES

	DOSAGE PER DAY	FREQUENCY
Horses of 500kg	25 to 50 ml	10 days renewable

The simultaneous use of different organic acids or their salts is contraindicated when one or more of them are used at or close to the maximum permitted level.

PRODUCT ADVANTAGES

- Supports mobility and flexibility in athletic and aging horses
- Plant-based formula: meadowsweet, willow, and nettle
- Enriched with Vitamin C and E for antioxidant support

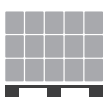

TIPS FROM PASKACHEVAL

This botanical formula helps relieve stiffness in horses by supporting their locomotion system, ideal for active or aging horses in need of joint comfort.

RAW MATERIALS

Meadowsweet, Willow, Stinging nettle (by maceration of plants)

Additives (/kg)		Nutritional values(%)	
3A-VITAMINS		Crude Ashes	0,20%
Vitamin E (3a700i)	2 000 UI	Crude Protein	0,00%
Vitamin C (3a300)	2 000 mg	Crude Fiber	0,50%
2B-FLAVOURINGS		Crude Fat	0,00%
Aromatic substances		Natrium	0,10%
Ethanol (2b02078)	26 655 mg	Moisture	93,00%
1A - CONSERVERS			
Formic acid (1k236)	5 180 mg		
Propionic acid (1k280)	1 510 mg		

Palletization:

Bottle of 1L: 10 units per packing
/ 600 units per pallet
