

Falcon Wormout Plus

🏠 Birds, Medications, Parasite Control

Sizes: 50's

Falcon Wormout Plus Tablets were developed by avian veterinarians for the treatment and prevention of all intestinal worms and coccidia in falcons. Contains Oxfendazole, Praziquantel and Diclazuril. This triple action formula is effective against Threadworm (Capillaria spp.), Tapeworm, Roundworm (Ascaridia spp.) and Coccidia. It is safe and highly effective, administered in tablet form to ensure accurate treatment.

Additional Information

Falcon Wormout Plus Tablets were developed by avian veterinarians for the treatment and prevention of all intestinal worms and coccidia in falcons.

Contains Oxfendazole, Praziquantel and Diclazuril. This triple action formula is effective against Threadworm (Capillaria spp.), Tapeworm, Roundworm (Ascaridia spp.) and Coccidia.

It is safe and highly effective, administered in tablet form to ensure accurate treatment. Worms may be hard to detect in early stages in Falcons, therefore a worming routine should be followed every 12 weeks to prevent health implications.

Ingredients

Ingredients :

20mg Oxfendazole, 10mg Diclazuril, 8mg Praziquantel.
