

HepaDol® Paste

LIVER PROTECTION AND REGENERATION

- L-arginine – essential amino acid for the synthesis of urea in the ornithine cycle – regeneration of the liver, removal of toxins from the liver
- Taurine – protects the liver from fibrosis
- Milk thistle and artichoke – protect liver cells against toxic substances, antispasmodic properties
- Lecithin – detoxification and regeneration of the liver
- Phospholipids – digestion of fats, increased absorption of fat-soluble vitamins
- Betaine – hepatoprotective, detoxifying effect

Indications

- Support in liver functioning
- Support in liver diseases
- Supportive in digestive disorders
- Supporting the body during therapies that stress the liver
- Supportive in case of intoxication
- Daily support of the liver
