

METRATONIC

PREPARATION FOR REPRODUCTION

Support for estrus and reproduction preparation. METRATONIC has been especially formulated to help the womb to go back to its functional status.

METRATONIC also promotes the recovery of the sexual cycle.

Echinacea, grapefruit, clove, fenugreek, cinnamon.

USES

	DOSAGE PER DAY	INSTRUCTIONS
Around foaling	50 ml	From the day of foaling until the end of the milk heat (+/-10 days)
Around mating / insemination	50 ml	During 5 days, ideally from 2 days before the presumed mating / insemination

The opinion of a dietary expert should be sought before using this supplement or extending its use.

PRODUCT ADVANTAGES

- Enriched with Vitamin E and Selenium to support uterine health and immune defense
- Contains plant-based extracts (Echinacea, Clove, Cinnamon) known to assist reproductive recovery
- Ready-to-use liquid formula with dosing cap for easy and precise administration

TIPS FROM PASKACHEVAL

The post-foaling period is crucial: helping the uterus return to function accelerates reproductive success. Natural compounds like grapefruit and fenugreek seed are traditionally used to stimulate hormonal balance. Combining antioxidants and phyto-actives helps mares resume their reproductive cycle more efficiently.

RAW MATERIALS

Propylene Glycol, Grapefruit, Echinacea purpurea, Cinnamon, Clove, Fenugreek Seed.
Product of plant transformation by maceration

Additives (/kg)		Nutritional values (%)	
3A-VITAMINS		Crude Ashes	0,20%
Vitamin E (3a700i)	100 000 UI	Crude Protein	0,00%
3B-TRACE ELEMENTS		Crude Fiber	0,50%
Selenium (Sodium selenite) (3b801)	50 mg	Crude Fat	0,00%
2B-FLAVOURINGS		Natrium	0,10%
Aromatic substances		Moisture	78,00%
Ethanol (2b02078)	28 210 mg		
1A - CONSERVERS			
Formic acid (1k236)	5180 mg		
Propionic acid (1k280)	1510mg		

Palletization:

Bottle of 1L : 6 units / packaging or 420 units per pallet
Bottle of 5L : 200 units per pallet
