Method and route(s) of administration:

Routine use to maintain the ears healthy and clean: once a week.

In case of excessively dirty ears, the product can be applied once daily for 8 days, upon consultation with a veterinarian.

Fill in the external ear canal with the product and gently massage its flexible part. Allow the animal to shake its head and wipe dissolved impurities running out of the ear with a cotton swab. Repeat the procedure in case of very dirty ears.

Special warning(s), if necessary:

In case of ear disease, consult your veterinarian. Do not apply when the eardrum is perforated and to animals with known hypersensitivity to any of the active ingredients or excipients.

Warning for persons applying

OTOFIN ear lotion: Persons with known hypersensitivity to any of the active substances or excipients should handle the product with caution.

Special storage conditions:

Store below 25 °C.

Protect from light and frost.

Keep out of the reach and sight of children.

Any unused veterinary medicinal product or waste materials derived from such veterinary medicinal product should be disposed of in accordance with local requirements.

OTOFIN

ear lotion
solution

dissolves ear wax,
cleans the outer
ear canal
of your dog or cat
and leaves the skin supple
and fragrant

100 ml

For animal treatment only.

Statement of active and other substances:

Propylene glycol 40.0 g; ($\pm$) - *alpha*-bisabolol 100 mg; fluid alcoholic calendula extract 3.0 g; lavender essential oil 100 mg; basil essential oil 280 mg; macrogol 7 glycerol cocoate; acidifier; disodium edetate dihydrate; foaming regulator; purified water.

Pharmaceutical form:

Ear lotion, solution.

Target species: Dog, cat.

Product characteristic.

Indication(s):

OTOFIN ear lotion dissolves ear wax, cleans the outer ear canal of your dog or cat and leaves the skin supple and fragrant. Regular use helps keep the ears clean and healthy. Calendula, lavender, basil and propylene glycol are known for their ability to reduce the numbers of bacteria and yeasts, they also act against some viruses and mites. Calendula and *alpha*-bisabolol have a proven anti-inflammatory and soothing effect.

Withdrawal period: Not intended for food-producing animals.
