

PaskaCheval

PASKAGAL

PROTECTS THE SKIN

Properties

PASKAGAL is an emulsified ointment, conceived for a local application. It has been designed in order to be applied on horses' legs that are particularly exposed to moisture. PASKAGAL supports the natural regeneration of skin cells and relieves itching.

Uses

Apply on the skin, leaving a layer for skin protection. Repeat the application 3 to 4 times per day. In case of wet weather, do not hesitate to apply it on the pasterns before any injury appears. Product to store in a temperate place.

Composition

Water, Mineral oil, Lanolin, Cod-liver oil, Benzyl Alcohol.

Cream - Pot 500 ml
