You are advised to use Paskastomac for a period of one month, repeating if necessary.

PRODUCT ADVANTAGES

- Enhance stomach wall protection
- Optimize digestion
- Support cell renewal

TIPS FROM PASKACHEVAL

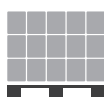

Why do horses develop ulcers?

Stress: Transport, competition, and changes in routine can contribute to stress, which increases the risk of ulcers. **Diet:** Periods of fasting, excessive grain, irregular feeding schedules, and a lack of fiber can lead to digestive issues and ulcers. **Housing:** Confining horses to small spaces and not providing enough exercise can negatively affect their digestive health. **Medications:** The use of nonsteroidal anti-inflammatory drugs (NSAIDs) increases the risk of developing ulcers in horses.

RAW MATERIALS

Brewer's yeast, Wheat mash, Sodium bicarbonate, Lithothamnion, Marshmallow processing product, Calcium carbonate, Chicory roots, Sunflower oil, Schizochytrium sp. algae meal, Aloe vera processing product, Sodium chloride

Additives (/kg)	Additives (/kg)	Nutritional values (%)	
2B-FLAVOURINGS	1I-ANTI-CAKING	Crude Ashes	34,10%
Aromatic substances	Bentonite (1m558) 100 000 mg	Crude Protein	16,30%
	1B-ANTIOXYGENS	Calcium	5,83%
	Propyl gallate (E310) 9 mg	Crude Fiber	2,91%
		Natrium	3,40%
		Crude Fat	4,50%
		Ash insoluble in hydrochloric acid	7,60%

Palletization:

Buckets of 3 kg : 138 units per pallet
With a 25 g measuring scoop
