LEG & HOOF CARE

LEG CARE

FRENCH POWDER

RECOVERY OF THE LIMBS

1.Mix the Clay Paste:

Combine 1 dose of cold water with 2 doses of French powder in a clean bucket. Stir thoroughly until you reach a thick, smooth, spreadable paste consistency.

2.Inspect and Clean the Legs:

Prerequisite for safe application.

Thoroughly clean the horse's lower legs. Ensure the skin is completely free from open cuts, abrasions, or wounds to prevent irritation or infection.

3.Apply the Clay Layer:

Spread a thick layer of the paste starting from the bottom of the leg working upward, then smooth it flat downward against the direction of the hair.

4.Wrap (Optional):Helps retain moisture longer.

If desired, cover the paste with brown paper or plastic wrap and secure it with stable bandages to hold moisture in and keep the stall clean.

5.Wait 12 Hours & Rinse:

Leave the clay on for 12 hours. Afterward, wash off all dried paste thoroughly using plain cold water.
