

SUPER GROWTH

Instructions for Use and Intended Use:

In chicks, young chickens, adult chickens, turkeys, and other poultry;

Complementary feed supplemented with vitamins, amino acids, and flavoring agents to meet Calcium, Magnesium, Sodium, and Potassium requirements; dosage: 1,000 mL (1 L) per 1,000 L of drinking water or 1,000 kg of feed.

In horses, camels, cattle, sheep, goats, and other large and small ruminants;

This complementary feed—supplemented with vitamins, amino acids, and flavoring—is designed to meet calcium, magnesium, sodium, and potassium requirements; it is used by adding 5 ml to 20 L of drinking water or 20 kg of feed.

Warnings:

- ✓ Do not use in combination with Vitamin D2.
- ✓ Since it contains methionine, excessive protein intake should be avoided.
- ✓ Store at room temperature in a dry place away from sunlight.
- ✓ Avoid contact with eyes. In case of contact, rinse the eyes with plenty of water.
- ✓ Wear protective clothing, a mask, goggles, and gloves during use.
- ✓ Shake well before use.

Shelf life:

It should be consumed within 24 months of the production date, provided it is stored under appropriate conditions and in unopened packaging.
