

THERMOGEL

HEATING GEL

THERMOGEL is a warming gel, to be applied on the horse's legs (tendons and joints) and muscles for the training preparation. Its heating action enables the stimulation of the blood flow and the muscles' relaxation, which makes the horse immediately available for the training session. Apply the gel by rubbing gently onto the areas you want to work on. Does not contain capsaicin.

Aqua, hydroxyethyl acrylate / sodium acryloyldimethyl, taurate copolymer & isohexadecane & polysorbate 60, vanillyl butyl ether

HOBBY

RACE

SPORT

PRODUCT ADVANTAGES

- › Warming gel for horse muscles and joints
- › Stimulates blood circulation and muscle readiness
- › Can also be used after exercise for recovery

TIPS FROM PASKACHEVAL

Ideal before and after physical effort, THERMOGEL prepares your horse's body for action and helps speed up muscle recovery thanks to its deep warming effect.

USES

Apply the gel on the area by massaging slowly with the hand. THERMOGEL can also be used after training, for muscle recovery. Do not apply on mucous membranes, on the eyes or on open wounds. For external use only.
