# TILOSINA 200

REGISTRATION NUMBER Q-7972-091

**Tylosin tartrate**  
**INJECTABLE SOLUTION**

**Macrolide antibiotic**

---

**FORMULATION:**

Each ml contains:

Tylosin Tartrate equivalent to 200 mg  
of Tylosin base.

Vehicle q.s. .... 1 ml

**CONSULT A VETERINARY DOCTOR  
AVAILABLE BY PRESCRIPTION ONLY**

**INDICATIONS:**

**TILOSINA 200** is a bacteriostatic agent for the treatment of chronic respiratory diseases and others caused by Mycoplasmas, Gram positive bacteria and some Gram negative bacteria. In Bovines, Ovines and Caprines it acts on diseases such as pneumonia, diphtheria and metritis; in Swines against erysipelas, arthritis caused by mycoplasmas, salmonellosis and cases of enteritis. In birds it works in cases of sinusitis, sacculitis and mycoplasmosis.

**SPECIES:**

Bovines (meat and milk), Swines, Ovines, Caprines and Poultry for fattening.

**DOSES:**

Bovines, Swines, Ovines and Caprines: 1 ml (200 mg) per 20 kg of body weight every 24 hours for 3-5 days.

Poultry: 0.15 ml (30 mg) per kg of body weight every 24 hours for 3 days.

**ROUTE OF ADMINISTRATION:** Intramuscular.

**WARNINGS AND/OR RESTRICTIONS:**

Withdrawal period: Beef bovines, Ovines and Caprines: 21 days. Swines: 14 days. Fattening birds: 5 days, do not administer this product should not be administered before the slaughter of the animals, 21 days in the case of beef cattle and poultry and 14 days in swines. Do not administer this product to birds producing eggs for human consumption. Dairy bovines: 5 days.

TILOSINA 200 is contraindicated in patients hypersensitive to the formula. TILOSINA 200 should **NOT** be used in equines. In the case of bovines and swines, it is recommended to divide the dose to apply the product in different areas and thus avoid swelling. Correct management of antibiotics reduces antimicrobial resistance. Avoid underdosing. Its use is recommended under laboratory diagnosis. Keep in a cool, dry place, within a range of 15-30°C and protected from direct sunlight. Keep out of reach of children and pets. Any unused veterinary medicinal product, residues derived from it and empty primary packaging should be disposed of safely and in accordance with local regulations, avoiding contamination of water resources.

**Product for exclusive use in Veterinary Medicine.**

**VETERINARY USE**
