

## Broad spectrum antiparasitic for Equines

### COMPOSITION:

Each 30 g syringe contains:

|                        |          |
|------------------------|----------|
| Ivermectin .....       | 0.120 g. |
| Pyrantel pamoate ..... | 11.40 g  |
| Praziquantel .....     | 1.50 g   |
| Excipients csp         | 30.00 g  |

### INDICATIONS:

Broad spectrum antiparasitic for equines, indicated for ascariasis, large and small Strongylos, Oxyurosis, Gasterophilosis, adult cestodes and their larvae. In general for gastrointestinal parasites and their larvae. Ivermectin: Gastrointestinal parasites: Parascaris equorum, Strongylus spp, Oxyurus equi. Lung parasites: Dictycaulus arnfieldi. Praziquantel: Anoplocephala perfoliata, Anoplocephala mamillana Frasciola spp. Pyrantel: Strongylus equinus, vulgaris, edentatus, Probstomyria vivipara A. Perfoliata Parascaris equorum, Oxyuris equi, Anoplocephala and Paranoplocephala spp. It can be applied to foals of all ages and in the case of active stallions since it does not alter libido or spermatogenesis.

### CONTRAINDICATIONS:

Do not administer with piperazine or levamisole (due to pyrantel pamoate). Do not administer to animals intended for human consumption. Do not administer to animals sensitive to any of the active ingredients. Do not administer to pregnant females.

### DOSES AND ROUTES OF ADMINISTRATION:

Oral. To apply the product, check that the equine's mouth is free of food. Insert the syringe into the mouth through the interdental space to a place close to the base of the tongue. Immediately push the plunger until the lock stops. Remove the syringe and lift the equine's head to ensure proper swallowing of the product. Consequently, the contents of the syringe (30 g) should be administered for an average equine weighing 600 kg. In case of severe infestations, repeat the dose after 15 to 21 days

### PRESENTATION:

Package content: 30 g

**NOTE:** The distributor is not responsible for the consequences arising from improper use of the product, since it will be used in circumstances beyond the distributor's control.

**Always consult with your Veterinary Doctor.**  
**Keep out of the reach of children and pets.**  
**In the event of accidental poisoning attend the nearest poison control center.**  
**Store sheltered from light between 15° and 25° C**  
**Used containers must be discarded according to current local legislation.**
